

ONEMBA CLASS DIRECTORY

Class of 2015

OneMBA is a global executive MBA program with partner universities on four regions. It's designed to bring together executives living and working around the world, and enable them to create a network of global business leaders.

The OneMBA Program's unique format is comprised of three key components: Globally Coordinated Courses, Global Residencies and Local Courses. This allows participants to exchange experiences and build powerful relationships as they complete international projects and meet face-to-face during the Global Residencies.

The OneMBA network, characterized by a rich diversity of cultures, gives participants first-hand knowledge of how businesses operate all over the world and creates a unique environment for developing a global mindset.

Executives maintain that the network of international contacts they develop through the OneMBA Program is one of the most valuable benefits of the program. This network provides a growing resource for OneMBA executives and their companies as they manage, source, sell and compete around the globe.

The OneMBA class of 2015 is a diverse group of 93 executives with 16 different nationalities and with various backgrounds and expectations, creating an ideal environment for the development of the future global executive.
